Index of Subjects

Alternative microthread for studies of airborne survival of microbes (Handley & Roe) 504

Aminopeptidase N from *Streptococcus salivarius* subsp. *thermophilus* (Midwinter & Pritchard) 288

Amylase-producing bacteria from fermenting tef (Lealem & Gashe) 348

Antibiotic from *Bacillus licheniformis* M-4 (Lebbadi, Galvez, Maqueda, Martinez-Bueno & Valdivia) 49

Antibiotic produced by *Alteromonas luteoviolacea* Gauthier 1982 (McCarthy, Johnson & Kakimoto) 426

Bacillus flora of milk and milk products (Crielly, Logan & Anderton) 256

Bacteria and dry storage on the opening and water relations of cut rose flower (Van Doorn & D'Hont) 644

Bacterial attachment to gut cells (Spencer & Chesson) 215

Bacterial growth and u.v. irradiation (Kusnetsov, Keskitalo, Ahonen, Tulkki, Miettinen & Martikainen) 461

Bacterial luciferase and heat resistance (Mackey, Cross & Park) 149

Bacteriological evaluation of groups of beef carcasses (Jericho, Bradley & Kozub) 631

Beta-glucosidase activity in yeasts of oenological origin (Rosi, Vinella & Domizio) 519

Bioluminescent *Rhizobium leguminosarum* biovar *trifolii* (Cresswell, Skøt & Cookson) 656

Biotyping of group G streptococci (Vieira & Castro) 408

Campylobacter identification by the nucleic acid amplification system NASBA^{R} (Uyttendaele, Schukkink, Van Gemen & Debevere) 694

Campylobacter spp. in sewage sludge (Holler & Schomakers-Revaka) 591

Catalases of feline *Porphyromonas* (Love & Redwin) 421

Characterization of *Aeromonas salmonicida* subsp. *salmonicida* (Dalsgaard, Nielsen & Larsen) 21

Citrate metabolism in *Leuconostoc mesenteroides* (Bellengier, Hemme & Foucaud) 54

Cyclic growth of lactobacilli in beer (Fernandez & Simpson) 635

Degradation of metamitron by a *Rhodococcus* sp. (Parekh, Walker, Roberts & Welch), 467

Desiccation resistance of bacteria (Janning, in't Veld, Notermans & Kramer) 319

Detection of stressed cells by PCR (Masters, Shallcross & Mackey) 73

Direct detection of viable bacteria (Diaper & Edwards) 221

Effect of *Aeromonas* strains on the growth of *Legionella* (Toze, Cahill, Sly & Fuerst) 169

Elimination of enteric bacteria (Iriberri, Azua, Labirua-Iturburu, Artolozaga & Barcina) 476

ELISA for *Bacillus cereus* toxin (Day, Tatani, Notermans & Bennett) 9

ELISA for *Clostridium aldrichii* in anaerobic digesters (Brigmon, Chynoweth, Yang & Zam) 448

ELISA results for *Erwinia* spp. (van der Wolf, van Beckhoven, de Vries & van Vuurde) 160

Enhancement of β-galactosidase productivity of *Aspergillus niger* NCIM-616 (Rasouli & Kulkarni) 359

Enumeration of *Bacillus subtilis* L-form bacteria (Waterhouse, Allan, Amijee, Undrill & Glover) 497

Escherichia coli in shellfish (Dupont, Menard, Herve & Minier) 296

Evaluation of selective supplements for isolation and recovery of *Yersinia* (Toora, Budu-Amoako, Ablett & Smith) 67

Flow cytometry of *Salmonella* (McClelland & Pinder) 440

Forage hemicellulose digestion by rumen bacteria (Fondevila & Dehority) 541

Genetically-engineered and wild-type strains of the yeast *Saccharomyces cerevisiae* (Fujimura, Sakuma & Amann) 689

Growth and immunogenicity of *Clostridium chauvoei* (Cortinas, Micalizzi & de Guzman) 382

Growth and physiology of *Yersinia enterocolitica* (Goverde, Kusters & Huis in't Veld) 96

Growth response to temperature cycling (Mitchell, Brocklehurst, Parker and Smith) 113

Gut bacterial flora of start-feeding larval turbot (Munro, Barbour & Birkbeck) 560

Haemolytic and phospholipase C activities of *Rhodococcus equi* (Smola, Katerov & Schalen) 325

Heating rate in the thermal inactivation of *Listeria monocytogenes* (Stephens, Cole & Jones) 702

Heterotrophic bacteria in thermal springs (de los Angeles Mosso, del Carmen de la Rosa, Vivar & del Rosario Medina) 370

Histamine production by wine lactic acid bacteria (Lonvaud-Funel & Joyeux) 401

Hot air resistance of *Bacillus cereus* spores (Pfeifer & Kessler) 121

Identification of salmonellas in naturally contaminated veterinary samples (Davies & Wray) 237

Inhibition of seed germination by phaseolinone (Bhattacharya, Dhar, Siddiqui & Ali) 129

Interactions between *Micrococcus* spp. and *Pseudomonas aeruginosa* on agar surface (Chapuis & Flandrois) 727

Keys for biochemical identification of *Vibrio* species (Alsina & Blanch) 719

Lactic acid decontamination of meat (Van Netten, Huis in't Veld & Mossel) 490

Lactoferricin, a new antimicrobial peptide (Jones, Smart, Bloomberg, Burgess & Millar) 208

Macrorestriction analysis of *Leuconostoc* strains (Tenreiro, Santos, Paveia & Vieira) 271

Metabolic activity in heat-stressed *Listeria monocytogenes* (Bovill, Shallcross & Mackey) 353
Metabolism of lactic bacteria from wine (Rodriguez & Manca de Nadra) 61
Microbial inactivation at linearly rising temperatures (Miles & Mackey) 14
Microbial metabolism and biotransformations of styrene (Warhurst & Fewson) 597
Microbial succession and intestinal enzyme activities in the developing rat (Chang, Chadwick, Allison, Hayes, Talley & Autry) 709
Microwave-based clinical waste decontamination unit (Hoffman & Hanley) 607
Monoclonal antibodies against *Xanthomonas campestris* (Sanders, Verschoor, van Wyngaard, Korsten & Kotze) 509
New intermediate in the aflatoxin biosynthetic pathway (Garcia, Herce, Blanco & Suarez) 553
New polyene produced by *Spirillospora* (Hacene, Kebir, Sid Othmane & Lefebvre) 484
Novel lactobacillus bacteriocins (ten Brink, Minekus, van der Vossen, Leer & Huis in't Veld) 140
Oxygen tolerance estimates in *Campylobacter* (Hodge & Krieg) 666
Pathogenic and spoilage micro-organisms in Irish farmhouse cheeses (Coveney, Fitzgerald & Daly) 621
Pathogenic *Vibrios* in mussels (Matte, Matte, Sato, Sanchez, Rivera & Martins) 281
Pectic isoenzyme production of *Erwinia* spp. (McMillan, Barrett & Perombelon) 175
pH and termination products of *Lactobacillus reuteri* (Ragout, Sineriz, Diekmann & Font de Valdez) 388
Phosphatases from *Myxococcus coralloides* D (Gonzalez, Farez-Vidal, Arias & Montoya) 567
Propionate, growth and fermentative activity of lactobacilli (Perez Chaia, Strasser de Saad, Pesce de Ruiz Holgado & Oliver) 134
Propionibacterium acnes, oxygen and light (Martin Gribbon, Shoesmith, Cunliffe & Holland) 583
Propionic acid-resistant yeast (Walters & Levin) 251
Protease production by *Streptomyces thermovulgaris* (Yeoman & Edwards) 264
Protein from *Mycobacterium tuberculosis* as a pyridine nucleotide transhydrogenase (Deshpande, Khan, Bhat & Navalkar) 639
Protein profiles of the rRNA group II pseudomonads (Li & Hayward) 308
Proton-ATPase activity in cells of lactobacilli (Perez Chaia, Strasser de Saad, Pesce de Ruiz Holgado & Oliver) 37
Pseudomonads in batch cultures in extract of minced lamb (Drosinos & Board) 613
Pulsed-field gel electrophoresis-fingerprinting analysis of *Rhizobium galegae* (Huber & Selenska-Pobell) 528
Purification and sequencing of a bacteriocin produced by *Pediococcus acidilactici* UL5 (Daba, Lacroix, Huang, Simard & Lemieux) 682
Pyrimidine biosynthesis in *Helicobacter pylori* (Mendz, Jimenez, Hazell, Gero & O'Sullivan) 1
Pyrimidine-requiring mutants of *Lactobacillus plantarum* (Masson, Kammerer & Hubert) 88
RAPD typing of *Listeria* (Farber & Addison) 242
Rapid identification of *Aeromonas* using 16S rDNA targeted oligonucleotide primers (Dorsch, Ashbolt, Cox & Goodman) 722
Recovery of *Xanthomonas campestris* from tropical soils (Fukui, Arias & Alvarez) 534
Regulatory effects of bifidobacteria (Gibson & Wang) 412
Reisolation of *Streptomyces* strains from plant roots (Elliott, Des Jardin & Di Bonito) 80
Salvage synthesis of purine nucleotides by *Helicobacter pylori* (Mendz, Jimenez, Hazell, Gero & O'Sullivan) 674
Silage inoculant examination (Kneifel, Toros, & Viernstein) 42
Solute accumulation in *Erwinia chrysanthemi* under osmotic stress (Prior, Hewitt, Brandt, Clarke & Mildenhall) 433
Stability of plasmids in *Salmonella* maintained in stab culture (Olsen, Brown, Baggesen & Bisgaard) 155
Staphylococcus aureus behaviour in garlic added broth (Gonzalez-Fandos, Garcia-Lopez, Sierra & Otero) 549
Streptococci and enterococci from pigs (Devriese, Hommez, Pot & Haesebrouck) 31
Stress response of *Pseudomonas fluorescens* AH9 (Jørgensen, Nybroe & Knøchel) 340
Survival of allochthonous bacteria in still mineral water (Moreira, Agostinho, Morais & da Costa) 334
Tests for pathovars of *Pseudomonas syringae* (Young & Triggs) 195
Thermotolerant varieties of *Bacillus licheniformis* (Khiyami Horani & Priest) 392
Typing of *Clostridium perfringens* by *in vitro* amplification of toxin genes (Daube, China, Simon, Hvala & Mainil) 650
Typing of *Listeria monocytogenes* and enterobacteria (Niederhauser, Hofelein, Allmann, Burkhalter, Luthy & Candrian) 574
Vagococcus fluvialis from domestic animals (Pot, Devriese, Hommez, Miry, Vandemeulebroecke, Kersters & Haesebrouck) 362
Vagococcus salmoninarum isolated from diseased salmonid fish (Schmidtke & Carson) 229
Variations in faecal properties of healthy adults (Ikeda, Saito, Shimizu, Ochi, Mizutani & Watabe) 185
Viability of coccoid forms of *Campylobacter jejuni* (Boucher, Slater, Chamberlain & Adams) 303
Visible light damage to *Escherichia coli* in seawater (Gourmelon, Cillard & Pommepuy) 105
Volatile fatty acid production by *Pectinatus frisingensis* (Membre & Tholozan), 456
